The purpose of my visit was to verify the standards of maintenance and cleanliness were consistent with the Quality Standards requirements and to update our records to reflect any changes to the scores since the last inspection. It was good to visit Headon Farm again and catch up with Linda to find out what has happened over the last year. The toilets/showers were undergoing some electrical work but were still spotlessly clean. The pitches were well maintained with the grass cut and the surrounding grounds, trees, flowers and shrubs all looking good. The hardstanding pitches were weed free. I can confirm that the AA Classification remains at 3 Pennant Gold with a slight increase in the quality score to a very good 91%. I thanked Linda for her time and wished her well for the new season.

Provision of Services & Facilities

You must provide all the services and facilities for Caravan & Camping minimum entry (one Pennant) and additionally any services and facilities required for your target pennant rating. These are listed below in the same order as the Quality Standards booklet.

There are certain services and facilities, which are deemed "Key" (marked with the  symbol in the table below), and these are the most significant in terms of guest expectation. The absence of any of these may delay confirmation of your pennant rating. In the details below these are marked in bold.

There are other services and facilities, which are deemed "Additional", and these are less significant in terms of guest expectation. A commitment to address these will generally allow confirmation of your pennant rating.
