The purpose of my visit was to verify the standards of maintenance and cleanliness were consistent with the Quality Standards requirements and to update our records to reflect any changes to the scores since the last inspection. On my recent visit unfortunately Richard and Linda were away but I met with Rebecca their daughter who was happy for me to carry out the inspection on my own. The pitches and surrounding grounds were well maintained with the grass cut and the trees, shrubs and flowers all looking good. The toilets and showers were spotless with good detail paid to the cleaning. It was good to see this farm site busy. I can confirm that the AA Classification remains at 3 Pennant Gold with a slight increase in the quality score to a very good 92%. I thanked Rebecca for her time and wished her well for the rest of the season.

Provision of Services & Facilities

You must provide all the services and facilities for Caravan & Camping minimum entry (one Pennant) and additionally any services and facilities required for your target pennant rating. These are listed below in the same order as the Quality Standards booklet.

There are certain services and facilities, which are deemed "Key" (marked with the  symbol in the table below), and these are the most significant in terms of guest expectation. The absence of any of these may delay confirmation of your pennant rating. In the details below these are marked in bold.

There are other services and facilities, which are deemed "Additional", and these are less significant in terms of guest expectation. A commitment to address these will generally allow confirmation of your pennant rating.
